## Report from ICA to IUPAP – 2008-2009

The ICA board elected at the ICA General Assembly in 2007 continues with the executive comprising Samir Gerges as President, Sonoko Kuwano as Vice President, Hugo Fastl as the Treasurer and Marion Burgess as Secretary General. The 2009 board meeting was well attended and the early start allowed for good discussion on many matters important to ICA at this time. In particular there was further consideration of the governance and options for changes to the structure of the board. A proposal for a revision to the board structure has been prepared and sent to the member societies for their comment with a view to modification and voting by the ICA membership at the next General Assembly in Sydney in 2010. The country membership of the ICA has not been increasing while it is clear that the interest in acoustics is expanding. The majority of the larger acoustical societies are members and more work is being made by the President and board to encourage the smaller and less well established acoustics groups in developing countries.

The Board continues with its task of obtaining greater acknowledgement of the role of acoustics with a view to seeking full membership of ICSU. The inclusion of of the following international affiliates has increased the strength of the board: European Acoustics Association (EAA), IberoAmerican Federation of Acoustics (FIA), International Institute of Noise Control Engineering (I-INCE), International Institute of Acoustics and Vibration (IIAV), Western Pacific Acoustics Commission (WESPAC) and the International Congress on Ultrasonics (ICU). The Board has set up an International Conference Coordination Committee with a view to encouraging improved coordination of these international activities.

The major activity for the ICA is the congress held every 3 years. In 2010 this will be held in Sydney Australia and we look forward to the assistance of IUTAM in promoting this important activity. In the current international economic environment it will be a challenge to ensure that this event is both scientifically and financially viable.

The ICA has also provided support to the following specialist symposia in 2008 and has offered support to a number of meetings in 2009 and a commitment for 2010. The call for applications for symposia support for 2010 has been sent out and selection will be made by the end of 2009

The selection of the prestigious Early Career Award is in progress and will be awarded at the time of the ICA in Sydney in 2010. Also at this congress over 24 ICA Young Scientist Awards will be made.

The ICA acknowledges the ongoing collaboration with IUPAP. We look forward to strengthening this collaboration in the future and value the contribution from the IUPAP representative at Board Meetings.

The ICA board is keen for the ICA to become a Union within ICSU and looks forward to the support from IUPAP in achieving this goal.
